BTS TRUSQUARE® can change the way you do business. Our name says it all. We're square and proud of it. Because TruSquare® is produced by Burgon Tool Steel, you know it will arrive on time, backed by the BTS reputation for Service and Quality.

BTS TRUSQUARE® is machined on four sides in a wide variety of common stock sizes that are inventory-ready for shipment within 24 hours. Or we can manufacture special widths and thicknesses to your precise specifications.

BTS TRUSQUARE® saves time and money. Because this product is square and parallel, it will cut truing operation time to a minimum. We do the work for you with oversize to finish at nominal.

BURGON TOOL STEEL has become the leader in the industry for one simple reason—Customer Service. With a highly trained staff and our in-house processing center including Blanchard and Mattison grinders, we can manufacture specialty size steel products to within .001 tolerances with up to six sides ground. By constantly expanding our facility—now over 110,000+ square feet—we continue to carry the inventory you require, presently over five million pounds in tool steel alone. Our delivery is so fast and accurate that our customers swear BTS stands for "Best Timed Service".

Dial the Burgon Hotline today for fast service from helpful people you can trust.
